

Library Awareness

Report to the KLA Board

September 11, 2010

We received excellent nominations for our awards this year and will give them at our annual awards luncheon next Thursday.

I submitted the Spotlight Feature to *Kentucky Libraries*. This issue featured our own Paul Poland. I will submit my final issue for the next issue.

I am still attempting to find the status of our license plate project. We have jumped through all the loops and I have called my contact in the Transportation Office several times a week for over a month, but have not had a return call. I have asked my senator and Tom to see if they can “rattle the cages.”

As some of you already know, I will not be chairing this committee after conference. It has been a great privilege and joy to serve in this capacity for the last five years. I hope I have done the office justice and know my successor will do an excellent job. I encourage all of you to keep that person informed about all the great things happening with you, your colleagues, and your libraries.
